The Temple of Hatshepsut, Egyptian Pharaoh (1490-1468 BCE)

David was thirty years old when he began to reign, and he reigned forty years. Seven years and six months he reigned in Hebron, and in Jerusalem he reigned thirty-three years he reigned over all Israel and Judah in Jerusalem.
(1 Samuel 5:4-5 / 2 Samuel 2:11 / 2 Samuel 5:5 / 1 Kings 2:11 / 1 Chronicles 3:4)

Dedicated to Lee Tenace on his 77th birthday, Dec 01, 2012.

El Crisol de la Credo Creible

Part 1

(See also: Part 2
of The Crucible of Credible Creed - El Crisol de la Credo Creible)

Right: This solid gold statue of Senusret III is one of the most distinctive representations in ancient Egypt. Its realism is in sharp contrast with the idealized representations of other pharaohs. Its expression is serious and contemplative, with a slight smile. Its eyes are those of a man who has seen much and knows what it means to govern.

Como agua fría a un alma cansada, así es un buen informe procedente de un país distante.
Proverbs 25:25, New World Translation of the Holy Scriptures (1984)

As cold water upon a tired soul, so is a good report from a distant land.
Proverbs 25:25, New World Translation of the Holy Scriptures (1984)

"El Crisol de la credo creible" presents an alternative view to the conventional wisdom of the Holy Bible. The differences are minute as it is right as negligible. However, the difficulties of translating ancient Egyptian into modern English are well known. Some of the Egyptian words have no equivalent in English. Some of the Egyptian words have many meanings. The Egyptian language is not the only one with this problem, but it is not the only one with this problem. Nevertheless, that the best intentions for translating from the Hebrew scriptures could appear to be the same as the translation of an impossible to translate Egyptian document. The Egyptian language is not the only one with this problem. The Egyptian language is not the only one with this problem. The Egyptian language is not the only one with this problem. A Swiss witness would point to the same method the undeniable label of circular reasoning, although absent-both. Here was the reasons the Bible according to science of 19 Swiss witnesses. Nineteen Swiss witnesses. Nineteen Swiss witnesses. Nineteen

Chapter 6: Pharaoh Apophis and His Royal Daughter Herit

Abstract: The Hyksos Series Tablets, recently found in Egypt, contain a story of Pharaoh Apophis and his royal daughter Herit. Tablets also contain a story of Pharaoh Apophis's son, Prince Apophis, who is a Christian. Prince Apophis's son, Prince Kamose, who is a Christian, refuses to marry his royal sister, Princess Herit, who is a pagan. Pharaoh

Accurately Carbon Dating Shishak and Carthage
(With Ceramics Dating of David, Gezer, and Tiglath-Pileser)

The campaign of Shishak in Canaan has near-correspondences to the destruction layers at Dor, Rehob, and Megiddo, hill cities of Palestine (Canaan) which have radiocarbon dating results consistent with our 973 BCE (only two years away).[1-6] **The two best measurements are -975 (976 BCE) and -965 (966 BCE), both of these with uncertainties of only five years.**[3] The other destruction in this area, by Tiglath-Pileser III King of Assyria, occurred much later, and is thus separate (2Kings 15:29, King Pekah, 959 BCE; 16:7, King Ahaz, 941).[7,8]

Based on radiocarbon measurements at the site of Carthage, mentioned above (2008), the founding of Carthage should be dated 35 to 50 years earlier than the conventional dating.[9]

All of this plus the ceramic evidence is in agreement that King David ruled Israel (and Carthage was founded) earlier than is conventionally implied, yet consistent with truth, **and this indirect radiocarbon dating of David is in strong agreement with the exhaustive work done on our chronology.**

Is it fair to say that the enemies of the truth can resort to baseless tactics to counteract acceptance of the Bible? Or is it fairer to recognize the difficulty of changing an existing system, with all of its fixed, coordinated dates. Also, it is fairly easy to be misled by radiocarbon dates. It is not wrong to be skeptical of the Bible-- it is wrong to avoid accepting the Bible when the cost is `the truth'.
